

Brian Dickinson
UK Strategic Project Facilitator
Piramal Healthcare (UK) Ltd

Brian has more than 29 years experience with various companies in the USA, Europe and India including: G.D. Searle, Monsanto, Pharmacia, Pfizer and currently with Piramal Healthcare. He became a 6 Sigma Black Belt in 2004 and has delivered many successful lean projects during his career.

Brian has a BSc (Hons) in Applied Chemistry from Newcastle Polytechnic (now Northumbria University) and began his career as a development chemist in a Chemical Process Improvement group. In 1991 he became a Senior Project Manager running significant projects within the API function. He managed the technology elements of "Spiro JIT" project with all processing steps successfully aligned to deliver a "drumbeat" manufacturing operation. He also project managed the acquisition of 2 new products from Denmark, and subsequent outsourcing to a third party manufacturer in Scotland.

Currently at Piramal Healthcare, Brian is Part of Corporate Operational Excellence group (Mumbai, India), reporting to the Vice President of Operational Excellence. He is responsible for continuous improvement project coordination in 3 UK sites (Morpeth, Grangemouth and Huddersfield). He also provides support to the Canada site (Toronto) on a "request for assistance" basis. He is a member of Site Senior Management Team and influences corporate OE strategy and direction.
